MAD VIKING BEARD
"TALKING TITANS"

(SPEC DEVELOPMENT
TREATMENT BY:)
Nicholas Chirico

DEVELOPMENT:

The set will be dressed with a quartz desk, with dual 4k monitors as visual aids. There will be a classic looking microphone the host will talk into sitting on the desk. Much like you would see on a sports talk show, but much more laid back, comfy couches by the desk, neon lighting. Something classy, that doesn't drive the heart rate up. But economical to the 250,000 Production Budget. The mood will be direct, like Real Time with Bill Maher without the controversy. BUT with a twist of levity and jest like you would find with the Daily Show. On the Dual Monitors, pending on the 250,000 Production Budget will show slideshows as visual aids and statistic that need to be presented as supplemental.

DP: If we are having round table discussions with three other co-host's. We are going to need a five camera set up, a master shot of all four at the table, and close ups each host, respectively. We are going to need to record all at once and later edit in Final Cut Pro Ten Multi-Camera syncing. The two operators should be able to go in between the cameras. It would be practical to rent this equipment on an episode by episode basis. It doesn't have to be anything fancy. Just able to shoot 4k video, zoom and focus.

Audio: Sound will use four lav mics piped into a 4 channel Tascam mixer for later multi-cam synchronization in FCPX. Rental strategy is same as above.

Wardrobe: Fashion forward, business casual. But the Co-hosts may come as they are, as long they are presentable.

For this pitch I haven't chosen a lead host, because I feel like that's kind of an "Eye-of-the-poet" type of singularize. I think an executive producer should finalize this decision.

Co Hosts- Partaking in the round table discussion will be Charlie Bachtell CEO of Cresco Labs, YouTube celebrity Anna Akana: The first deaf actor to win an academy award, Marlee Matlin. and a segment by special co-host Professional Boxer Avril Mathie. (her segment will be shot out of studio, and will be its own package.) Depending on the budget, There are AI tool available to translate Mrs. Matlin's Handicap-signage. In addition to accommodations made to Mrs. Matlin's disability, she will be fitted with an Apple Vision Pro, which will teleprompter her comfortably the conversions from faces directly.

It should also be noted, based on more specific cues by the script sup. during production, the visual aids for the monitors created in pre-production will show on the 4k monitors, pending, regular graphic thirds.

To make sure everyone is on the same page when it comes time to role, we will have production meetings where everyone will sit down and talk about the topics. this way, the banter is richer when it comes time for the cameras to role. This architectural treatment is only a skeleton draft, this way the host, based on the EP decisions, can have room to improvise and banter.

Motion Graphics will be created in post production to introduce the show. Depending on the \$250,000 budget allotment a three piece band: bass, key board, and drums will play an intro.

TREATMENT:

INT./EXT. A SERIES OF MOTION GRAPHICS (DEPENDING ON THE ARTISTS CHOICE AND ECONOMICAL CHOICES) WILL COME AT US WITH THE TITLE "TALKING:TITANS" WHILE THE BAND PLAY SOMETHING WITH A COOL BASS.

HOST:
(OPENING
MONOLOGUE)

Welcome to Talking: Titans! I'm
your host _____. Tonight:
Everything From the best Steak an
eggs for your buck, Best ski Spots.
The 5 best films where Wall Street
Crooks get their concupiscence.
Which THC level is the right for
you, and the best, easiest work out
that will help you lose 150
calories in three sets! But first:
to participate in our round table
discussion... (introduces guest.)

The three guests will share lite banter, a few jokes and stories before diving into the segments.

SEGMENT I.

HOST:
Let's start with a booming topic
tonight, and its certainly booming!
Its nearly a 3 billion dollar
business in New York and IL since
it was legalized on state levels,
boosting big incentives for the
economy. Cannabis. But how do you
know which is right amount for you?

The round table discussion will take places covering key topics:

- The differences in THC levels: Hemp Delta's 8 & 9, THCa, THC.
- Dispensary Hacks: medical cards save on taxes, and take you to front of retail service. A 30% potent THCa is just as good as a 25% at a dispensary because the dispensary waters pure THC down with THCa.
- How great is sex and running five miles on the tread mill when you are high.
- PTSD Treatment
- But what are the long term study effects? There are not any. Marijuana has only been legal in a handful of states so the data isn't conclusive to what the taxes are to your lungs, and mental health.
- favorite films to watch while on edibles.

SEGMENT II.

HOST:
Next up! This segment Id like to
call roulette.

The host pulls front a stack of note cards and reads from them.

SEGMENT III.

HOST:
This segment I would like to call
Breaking a Sweat with Professional
Boxer and Trainer Avril Mathie. She
is going to demonstrate to us some
simple exercises where you can burn
150 calories in just three sets!

The feed cuts to whats being played on the television
monitor as a motion graphic plays. Avril does squats with a
medicine ball and instructs the camera to do three sets of
15.

AVRIL:
Here's a question. What are the
best ab exercises, and way to
condition your abdominal?

Avril Demonstrates the Ab workout routine, cross touching
her elbow to each heighten knee cap, three sets of 15. Then
demonstrates a deep issue self massages of the abdominal to
trigger muscle break down.

SEGMENT IV.

HOST:
Thanks Avril! Now for our last
segment, lets talk over all nutria.
